## OBJECTIVE

Computer Science graduate and Front-End Developer focused on building dynamic, user-focused web interfaces. Collaborates closely with UI/UX designers and cross-functional teams to deliver seamless digital experiences.

## STRENGTHS AND EXPERTISE

JavaScript  
Tailwind CSS  
Figma

React.js  
HTML  
Bootstrap

Next.js  
Git

## PROFESSIONAL EXPERIENCE

Raybit Technologies  
Front-End developer

September 2024 - Present

- ◆ Project Involvement: Worked on multiple projects, including both in-house and client-based applications, delivering consistent and scalable front-end solutions.
- ◆ Front-End Development: Specialized in developing responsive and performant user interfaces as a Front-End Developer.
- ◆ Developed Responsive Web Applications: Designed and implemented user-friendly, mobile-first web applications using Next.js, React.js and Tailwind CSS, ensuring optimal performance across all devices.
- ◆ Custom Tailwind Themes: Created and maintained custom design systems and themes in Tailwind CSS to align with brand guidelines and ensure a consistent user experience.
- ◆ Collaborative Development: Partnered with back-end developers and UI/UX designers to achieve seamless API integration and cohesive user flows.

Translab.io, Jammu  
Front-End Intern

August 2023 - August 2024

- ◆ Implemented responsive design principles using HTML, CSS and Tailwind media queries and flexible layouts.
- ◆ Added functionality to the websites using React and React Redux.
- ◆ Conducted comprehensive API testing using tools like Postman, ensuring functionality, reliability, and performance.

## LEADERSHIP

- ◆ Currently serving as Front-End Development at Raybit Technologies, overseeing the front-end architecture and implementation across all projects.
- ◆ Mentor Junior Developers: Guide and support junior front-end developers in modern JavaScript frameworks, UI development, and best coding practices.
- ◆ Facilitate Technical Workshops: Conduct sessions on front-end performance optimization, component-driven development, and modern UI/UX implementation strategies.
- ◆ Lead Client Demos & Code Walkthroughs: Present front-end solutions to clients, lead technical discussions,

and gather feedback during design review sessions to ensure alignment with client expectations.

## Education

BGSB University J&K, India  
B.Tech in Computer Science

Sept 2016 - Sept 2020

Chandigarh University Mohali, India  
M.Tech in Computer Science

Sept 2021 - Sept 2023

Coursework: Databases, Data Structure and Algorithms, Computer Programming, Operating Systems.
